SOLUTRANS
16 - 20 NOV 2021 LYON · EUREXPO
THE GLOBAL HUB
FOR HEAVY & LIGHT COMMERCIAL VEHICLES

COME & MEET US!
STAND **5 B 120**

GRANALU

One more year, Granalu will be present at Solutrans, The Global Hub for Heavy & Light Commercial Vehicles, from the 16th until the 20th of November, 2021 at the Eurexpo Venue in Lyon (France).

Granalu will present its product innovations at its stand 5B120:

- Granalu Moving Floors. Granalu Moving Floors are multipurpose vehicles that allow bulk and palletized loads. Granalu will present the latest design improvements at Solutrans 2021, focused on providing greater sturdiness and lightness to the semitrailers, which increase the cargo volume, make transport more profitable and reduce the carbon footprint.
- Bulk Range. The Granalu Bulk Range is perfect for all types of bulk cargo if the objective is to achieve profitability without losing toughness. At Solutrans 2021, Granalu will present a new semitrailer model, which has been designed to achieve a greater cargo volume.
- In addition to the exhibition products, Granalu will talk about its Omega Evo semitrailer for Public Works, one of the bestselling models in the French market with a design patented by Granalu. It is one of the most aerodynamic, profitable and environmentally conscious of vehicles.

Solutrans, in its 16th edition, is one of the most important international trade shows across the commercial and urban vehicle industry, bringing together more than 60,000 exhibitors and visitors from all over the world every two years.
